

Domestic payment instruction import (TXT format)

The import file is a structured text file (.txt) with pipe separator "|". File encoding is windows-1251. The file contains data blocks General payment details, Creditor, Ultimate Creditor and Ultimate Debtor. These data blocks and fields in the blocks have certain fulfilling conditions. Main conditions are the following:

1. General payment details and Creditor blocks are always required in the import file
2. Ultimate Creditor block is only required if Ultimate Creditor presence field (№28) is set to 1
3. Ultimate Debtor block is only required if Ultimate Debtor presence field (№44) is set to 1
4. Address data fields are required if any address field is filled, or if Proprietary field is set as NA or TRAN
5. Either birth data fields, or address data fields are required if Proprietary field is set as UNKN

Fields description

Data Type	Description
N	Numeric
F	Flag, Boolean value: 1 (which indicates true), and 0 (which indicates false)
AN	Alphanumeric
D	Date (DD.MM.YYYY)
M	Mandatory
O	Optional

№	Data type	Description
General payment details		
1	N,5	Line number in file (starting from 1)
2	AN,29,M	Debtor account number
3	AN,35,O	Number of payment instruction (unique identifier)
